

ing to see on his last voyage, having made up his mind to quit the ocean, for the land, he purchased what he considered the cheapest article of the book kind—the whole series from the commencement of an agricultural publication. This he read upon the voyage, and bringing his judgment to the selection of what was valuable he found he was at home the moment he took possession of his farm.

But from this circumstance can we doubt that his effort would have been a failure, or nearly so? And perhaps no money that is expended produces such an enormous interest as that for periodicals upon farming.

Captain Topliff was soon acquainted with all the neighbors, and among them with Deacon Morey, whose three youngest daughters had all married in the neighborhood. Nabby, the eldest and like many other oldest daughters, the most capable of the family, was left; but Captain Topliff, who had seen much of the world, was as good here as in sitting periodicals. He saw her worth, and was not so faint hearted as to keep it to himself. Nabby, who in earlier days had learned the couplet of "There lives no goose so grey," &c., soon took up her residence at the house upon the hill. She was not partial to being waked up at the dawn, and so the captain upon her merely hinting the matter told her to discontinue it and from that time to look cook to Topliff for orders. Year after year passed away; the farm and the wife engrossed the whole of the Captain's attention and he was often heard to say, that he began to be happy when he bought a farm and improved it, but was only perfectly so from the hour that Nabby Morey became Mrs. Topliff.

FOR PRESIDENT,

OF KENTUCKY.

An Elegant, Useful, and Honorable Employment.

It is desirable that every person in this utilitarian age, should have some regular occupation, because, as old Chaucer says, "He that is idle, and casteth him to no business, no occupation, shall fall into poverty, and die for hunger." The opportunities for employment are so many, and the field for labor so broad, that none need be idle, for wherever he may be, if he will diligently observe, he may find something for the hands, and the head and the heart to do—some business in which they may engage.

We should hardly have supposed that, when there are so many objects of useful employment, and so wide a field thrown open to mankind, that any persons would have been ingenious enough to have discovered the kind of occupation of which we propose to speak. But the fact of so many engaging in it should be taken as the surest evidence of its usefulness.

It often happens in this world of change and sickness and death, that the wife is separated from the husband and the husband from the wife, and the survivor is left with a family of children, depending upon the wise counsel and constant care of suitable guardians, standing in the relation of parents. It is important, vastly important to these children, it would seem, that the breach caused by death in the family, should be healed with the least disturbing force and with the approval and hearty concurrence of all. The father, about to take to his heart's home, a mother to his children, feels hereby the step he is about to take and his judgment vibrates long between hope and fear before he makes a decision. He studies the dispositions of his children, he endeavors to promote their happiness and well being as well as his own. His responsibility and his anxiety are great. Here, at this critical point, human ingenuity and love of occupation have found a vast amount of employment.

The tender and susceptible minds of the man's children are filled to overflowing with wild and false speculations as to the character, disposition, and appearance of their intended "mother-in-law." All manner of "mother-in-law" stories are told, and ridiculous and abominable suggestions are made as to the measure of obedience they should yield, and the confidence they should bestow. The father, after much anxious thought, concludes to prepare the minds of his children for the proposed addition to the family. His preliminary remarks, instead of preparing the minds of his children for a just appreciation of his motives and a cordial acquiescence in the change, only serve to call up in their minds the stories that have been told them, and the remarks that have been poured into their minds, until every avenue to their hearts and their reason is blocked up with spectre shapes, and they are prepared to see only a monster, and to feel only abhorrence and rebellion. Thus, has many a father found the minds of his children preoccupied with falsehoods and error and prejudice, and by those too, in many cases, whose professions of friendship have enabled them thus to poison young minds and to breed untold mischief. Here is the employment in which many persons engage and with apparent delight. We submit whether all may not profitably and usefully engage in this and similar enterprises and congratulate themselves that they are doing an essential service to the community.

The Sunken Vessel.

The schooner reported by Capt. Owens, of sch. Zenobia, at New Bedford, as having foundered at sea, is supposed by the Boston Advertiser to be the schooner Sultan (of Bath) Capt. Hatchins, which cleared at Philadelphia, 30th ult for Salem, and has not been reported as having arrived there. This vessel answers the description given by Capt Owens. A sunken vessel was seen, on the 8th inst., 5 miles N. E. by N. from the light ship on Five Fathom Bank, which was probably the same vessel.

Sabbath School Pick Nick.

The teachers, pupils and many of the friends of the Unitarian Sabbath School, yesterday afternoon celebrated their anniversary by a splendid pick nick in the beautiful grove at high head on the bank of the river. A large number assembled at an early hour in the afternoon, and were soon intently and pleasantly engaged in the interchange of friendly greeting and in amusement afforded by a large number of fine swings that had been erected the trees.

The brass band were in attendance and performed a variety of fine airs in excellent style.

After a couple of hours were spent in various amusements suited to the different taste of the company, a proclamation was made for all to assemble at the table at the foot of the hill where an ample and elegant repast was prepared. On the company being gathered about the table, Deacon S. H. Dale, the Superintendent called them to order and in a short but beautiful and appropriate address gave a hearty welcome to all.

The pastor, Rev. Mr. Hedge then repeated the Lord's prayer which was responded by all present.

A Hymn was sung and the refreshments were then distributed to the whole company beginning with the youngest and passing on until all were supplied with abundance and variety.

The arrangements were happily conceived and admirably executed so that no uneasiness was felt or the slightest disturbance occasioned.

An address was made to the school by Rev. Mr. Hedge. It was full of good instruction and happily adapted to reach the minds to whom it was addressed.

Another hymn was sung, when Governor Kent, addressed the school in a few happy and forcible remarks.

A doxology was sung in Old Hundred by the whole company, when the band commenced playing, and the company separated, having enjoyed an afternoon very acceptably.

West Indies.

Nassau papers to the 1st, inst., have been received at Boston.

Much excitement had been caused on the North side of Jamaica by the acquittal of a certain Lieut. J. G. Cox, of the 2d West India regiment, on a charge of rape. Public sentiment declares him guilty.

In Grenada there has been a quarrel between the House of Assembly and the Lieut. Governor, consequent upon the arrest of a member for debt, on the first day of the session. The Lieut. Governor declined to order the gentleman's release, on the ground that he as well as the House was constitutionally bound to submit to the Courts decision. The House thereupon adjourned, sine die, and the Lieut. Governor dissolved it by proclamation.

A mail from England for Nassau, brought by the Trent, was through some blunder carried back to England by the Medway. The blunder occurred at Bermuda.

Yellow fever and Dysentery prevailed extensively at Bermuda. A number of Deaths had taken place among the troops and convicts. There had also been a hurricane which did much damage to the shipping, but no particular loss of life.

The reports from Hayti state that quiet was restored in that Island.

Fire in Auburn Village.

A correspondent of the Portland Advertiser states, that on Sunday morning last, the hotel of Mr. Hiram A. Pollard was consumed by fire, together with a part of the furniture, besides some household furniture, a valuable set of mechanic's tools, several wagons, two swine and other articles of value. The fire is supposed to have originated in a barrel of ashes, as it was first discovered near where it was situated. The loss is estimated from \$1800 to \$2000.

Bugbee has received at his Periodical Depot the twelfth and last number of Brande's Encyclopedia of science, literature and art.—It is a work that we have had frequent occasion to commend to our readers, and now that the publication of it by the Harpers' has been brought to a close, we renewably recommend to our readers to purchase all the numbers, assuring them, if they do so, that they will have a work of great merit and usefulness.

The New York Aurora says—"Horace Greeley, the senior editor of the Tribune, is as honest a man as God ever made." This assertion, coming from a paper strongly opposed to Mr. Greeley in politics may be considered an honest compliment.

The unfortunate men who were wounded by the late rail road accident near Baltimore, are all in a fair way of recovery, excepting Mr. McCabe, who is not expected to survive.

The Lynn Freeman says, up to last week, Robert Rantoul, Jr. has had no less than twenty-six hundred applications for office in the Boston Custom House.

The brig Plutas, of and from Boston, bound to Jacmel with a cargo of provisions, was lost 25th July on the east end of St Domingo: part of the cargo saved, the vessel a total loss.

The brig Lucy (of Boston,) Remick, from St. John, P.R., is ashore upon the lower end of Tinicum Island. Part of the cargo will have to be discharged before she can be got off.

The Portland Advertiser states that a child of Capt P. Johnson aged 15 months, died on Saturday night, in consequence of eating of poisonous composition that had been prepared to kill flies.

It is rumored, (says the Washington Capitol) that Col. Gardner has been appointed to the Auditorship made vacant by the resignation of the Hon. Mr. Whittlesey.

Whig Triumph in Bowdoinham.

John Patten, Esq. (Whig) was elected Representative from Bowdoinham, on the 4th ballot, on Monday last, by an increased Whig vote over that of the general election. In Bath, on the same day, there was no choice.—[Port Adv.]

The Whigs of Waterville elected President Fay at the 2d trial, 27 maj. In Gardiner no choice.

Guard Duty.

To the Editor of the Whig and Courier. Perhaps no duty pertaining to that of a soldier, places him in a position to gain for himself and the militia system, so much honor, or so much disgrace, just in accordance as he does this duty; as when in the performance of guard duty.

In former years, it has been the custom here as well as throughout our whole country, to detail for the guard at annual reviews, the poorest, most miserable abject (drunkards if any) beings, the several companies could turn out, which custom yet generally prevails and serves more than any thing else (if possible) to degrade the whole system.

I am happy to say—that an innovation was made in this old custom in this regiment last year, which proved a most salutary improvement—in detailing light troops for this important duty and its good effect, was so apparent, that the same novel course was adopted this year. Thus relieving the miserable, degraded, ignorant drunkard (perhaps) from acting in the capacity of a standard for the whole troops: I was peculiarly struck with admiration on Thursday last with the correct, systematic manner in which this duty was done up by the several corps detailed, and also in witnessing the multitude of spectators who on one front formed a solid phalanx, appearing on the front like an immense wall, and yet not one even attempted to step on to the line or make a single disrespectful remark, but all were apparently struck with admiration and awe.

I was astonished to see with what perfection and finish this duty was done by the Bangor City Greys, in mounting and relieving guard and also exhibiting an acquaintance and readiness in "turning out" the guard and paying compliments to officers according to rank and also when on posts, exhibiting a finish that cannot be surpassed by our own, or the armies of France or England in garrison.

I noticed in a late Whig some very complimentary remarks in regard to the appearance of the regiment. I wish to add a few more facts respecting which "Nadette" was probably unacquainted. Capt. Jellison undoubtedly merited all the praise which the writer gave him, but there were several other local Infantry Companies entitled to an equal allowance. Capt. Hall has made great sacrifice of time and money in perfecting himself and Company in the science of military, and he acquitted himself in a very able manner. Capt. Giligan is young with his Company, but he will prove himself old in his office. He brought his Company on to the field in fine style.

With Capt. Rollins, I was last year astonished and emporated at the ability he evinced in the Command of his Company. And this year, his Company on the field was kept in its position to such perfection, or manoeuvred more ably, than did Capt. Rollins'. He is a brilliant officer, and not only loves his duty, but loves to do it right. Capt. Burgess of Old Town, is a very valuable officer and acquitted himself with great credit, as did Capt. Rannels of Orono.—Capt. White, with the Brewer local Infantry, though last, will soon contend for the front rank of honorable distinction. To Captains Cummings of the Maine Guards and Pierce of the Old Town Light Infantry, much credit is due for the efforts they have made in bringing up their Companies to the very honorably position they occupy.

Honor to Whom Honor is due.

To the Editor of the Whig & Courier:

In your paper of the 18th inst., a correspondent, after justly noticing with high praise, the appearance of the Regiment at the last annual muster, proceeds to make a distinction which must, I think, be regarded by all who were on the field, as unjust to the City Greys; and proceeding from a peculiar partiality of the writer for the Bangor Rifle Corps. Considering both these companies as an honor to the city, and wishing to encourage an honorable emulation between them, I think with many others, that it is bad policy to award a general preference to one over the other in the columns of your paper, while it may be of service to both to point out the particulars in which either of them may have attained the superiority in military discipline.—This, however, is not my present purpose.

It is merely to protest against the opinion that the Rifle Corps carried off the palm from the City Greys and to insist that while the Greys were, to say the least, equal to any other company in soldier like appearance and skill in their ordinary evolutions, they were considered by many surpassing all others of the regiment in the manual exercise and in guard duty. It requires very nice discrimination to give the palm to either in any particular, and until the writer of that notice shall sustain his position by pointing out the particulars upon which his preference is founded the public will probably continue to speak of both companies with equal commendation. The expression that the "Rifles carried off the palm in fine style," evinces a partiality so decided as to give rise to the opinion, that your correspondent must have been formerly an officer of that Corps, and that his judgment is not a little warped by that circumstance. I have given not only my own opinion but that of the spectators where I stood, and although not on horseback as your correspondent perhaps was, we had a fine view of the whole regiment from the most elevated part of the field.

The returns of the late election are now almost complete. The Senate will stand 21 Whigs to 9 Locos. Last year it was 16 to 14—showing a Whig gain of ten in our majority in that body. In the House the Whig strength is 120 to 90. The Locofocos, so far as heard from. The remaining towns will not change the result. Our majority will not be less than forty in joint ballot. Last year it was but thirty-one. This result is much more favorable than we anticipated from the "general apathy" of our friends on the east side of the mountain. The vote for Governor, so far as we have returns is as follows:

John Mattocks, 21778

Daniel Kellogg, 18807

Charles K. Williams, 3249

Majority against Kellogg, 6230

[Vermont Watchman.]

Frost in Vermont.

The American Protector, published in Bradbury, (Vt.) of the 16th inst., says:

"On Monday, Tuesday, Wednesday and Thursday mornings, of this week, frost has appeared. Some slight damage has been done to the vines, but we believe the corn is not materially hurt in this immediate vicinity. Back from the river we learn that the frost has been more intense, and the farmers are cutting up their corn."

The "Charleston Mercury" says:—"Our deliberate conviction is, that Mr. Van Buren cannot be elected against Mr. Clay." * "There is scarcely a Southern State which Mr. Clay could not carry against Van Buren." * "His friends pretend to say he fell by his principles, and for them. Not so; principles fall by him."

Mr. Rathbun.

We have seen it stated in some of the papers that Benjamin Rathbun is to leave the Auburn prison this month. This will not be the case unless he receives the Governor's pardon; the time for which he was committed will not expire before the first week in October. It is probable that the Governor will restore Mr. Rathbun his civil rights, by a pardon some few hours previous to the expiration of his five years' imprisonment.

We have heard in rumored that he will return to Buffalo, and take charge of one of the hotels in that place. Others say that he will go into the practice of medicine, for which, we are informed, he is fully competent, having been the assistant of the physician of the prison during most of the time he has been in confinement, and he has thereby acquired a more than ordinary insight into the various ills to which the human frame is subject.—N. Y. Commercial.

Liabilities of Rail Road Companies.

There has been a decision in the French courts on this subject, which runs a little counter to the decisions in this country. A gentleman named Apau—who lost his wife and a son at the Versailles railroad catastrophe of May 1842, and suffered personal injury, persisted in seeking redress in both the criminal and civil courts against the directors and all the responsible functionaries of the company. A long decision has been pronounced by the Tribunal of the Seine, by which all parties were exonerated on the ground that of fatality, that "immense, insurmountable force of physical convulsion or explosion," which defies human foresight, and to the chances of which every one must consider himself equally subject.—This decision was grounded on the old Roman and the present French law.

Respired.

The three Winnebago Indians tried recently at Dubuque, Wisconsin, for the murder of the Tragarren family, had all been convicted and sentenced to be hung early in the present month, but the Governor, we understand, on an application for the pardon of one, has suspended the execution of all three until the 13th of October next.

On Thursday about three o'clock, there was a sprinkling of snow fell with the rain, at the corner of Sixth and Pine street, Philadelphia.

SANDS' SARSAPARILLA.
FOR THE REMOVAL AND PERMANENT
CURE OF ALL DISEASES ARISING
FROM AN IMPURE STATE OF
THE BLOOD, OR HABIT
OF THE SYSTEM,
NAMELY:
Scrofula, or King's Evil, rheumatism,
obstinate cutaneous eruptions, pimples,
bites, chronic sore eyes, ring worm
or tetter, scald head, enlargement
and pain of the bones and joints, stubborn
ulcers, syphilitic symptoms,
sciatica, or lumbago, and diseases
arising from an injudicious use of the
mercury, ascites, or dropsy, exposure
or imprudence in life. Also,
chronic constitutional disorders will
be removed by this preparation.
The proprietors submit to the public the following
certificate, from a highly respectable source, of
a cure made by using their preparation of Sarsaparilla,
which cannot but have the effect of placing
beyond all doubt the curative powers of the medicine.
New York, August 3, 1842.
"Messrs. Sands—Gentlemen: Under a feeling
sense of gratitude inherent to us all when suddenly
relieved from suffering and disease, I now, as an act
of justice due to you, and with a view of relieving
the afflicted, make known to the world the inestimable
benefit I have received from the use of your
Sarsaparilla. In the year 1832 I sailed from England
in a vessel bound for Quebec, and while on the
passage first discovered the disease which I can say,
proved to be a sore affection; and truly I can say,
from the crown of my head to the sole of my foot
there was no soundness in me. From the time first
mentioned down until the present, a period of more
than ten years, I have suffered all that human nature
was capable of bearing. I have been under the
care of the most distinguished physicians both in
this country and in England, visited Bath, Cheltenham,
Bristol and Gloucester, tried various specifics,
among others a large quantity of Swain's
Panacea, used sulphur baths, &c. As a last resort
I was induced to wrap myself in a tar ointment,
keep myself secluded, shunned by all, myself also
hopeless one.
In August last, by the advice of friends, I went
to the New York City Hospital, but was there told
that my case was incurable. The disease now enveloped
my whole body, rendering me almost helpless;
the skin thickened and cracked and blood and
matter ran, and life itself became almost a burden.
A few weeks since I was induced to use your Sarsaparilla
by hearing it so highly recommended. Having
spent nearly \$3,000 without obtaining but little
relief. After using it a short time, I found myself
better, and now, by using six or eight bottles, costing
me less than ten dollars, I am well. Yes, I certify
and declare to the world, that after spending
near \$3,000 in traveling and doctoring, and suffering
more than can be told, I was perfectly cured
by using your invaluable preparation of Sarsaparilla;
and I now recommend it to all similarly afflicted.
Those wishing to know further particulars will find
me at my residence, No. 27 Warren street, New
York, where I shall be happy to communicate any
thing in relation to the above cure.
PAUL BURDOCK."
Prepared and sold by A. B. SANDS & Co. Druggists
and Chemists, Granite Buildings, 273 Broadway,
corner of Chambers street, New York. And for
sale by Druggists throughout the United States.
Price \$1 per bottle, six bottles for \$5.
The public are respectfully requested to remember
that it is Sands' Sarsaparilla that has and is
constantly achieving such remarkable cures of the most
difficult class of diseases to which the human
frame is subject, and ask for Sands' Sarsaparilla,
and take no other.

feet—thence N. Easterly parallel with said first
line to the road about eight rods—thence South
Easterly on the line of said road eighty-three
feet to point begun at, subject to the rights spec-
ified in said deed; together with the most Northernly
of the two houses built on said land; as will more
fully appear by reference to said deed, recorded in
Penobscot Registry of Deeds, Book 90, Page 189;
which mortgage was, on the twenty-ninth day of
June, A. D. 1841, assigned by said Ray & Stone to
said Thomas Brastow, which assignment is recorded
as aforesaid, Book 131, Page 548—and said Thomas
also hereby gives notice of his claim by said mort-
gage on said premises, and that the condition in the
same has been broken, by reason whereof he claims
a foreclosure thereof.
Dated this eighteenth day of September A. D.,

WRIGHT'S
INDIAN VEGETABLE PILLS
Of the North American College of Health.
NATURAL PRINCIPLES. It is written in the
book of nature and common sense, that the
natural vegetable productions of every country are,
if properly applied, amply sufficient for the cure of
every malady incident to that climate.
WRIGHT'S INDIAN VEGETABLE PILLS
are composed of plants which grow spontaneously
on our own soil, and are therefore better adapted
to our constitutions than medicines concocted from
foreign drugs, however well they may be compound-
ed; and as they are founded upon the principle
that the human body is in truth subject to
ONLY ONE DISEASE,
viz., Corrupt Humors, or in other words, Impurity,
and cure every form of this one disease, on natural
principles, that is, by Cleansing and Purifying the
body, it must be plain to every reflecting mind that
a perseverance in the use of the medicine, accord-
ing to directions, will be absolutely certain to drive
every malady from the body.
When we wish to restore a swamp or morass to
fertility, do we not drain it of the superabundant
water? In like manner, if we would restore the
body to health, we must cleanse it of impurity.
WRIGHT'S INDIAN VEGETABLE PILLS
will be found a delightful medicine for carrying out
this grand purifying principle, because they expel
all morbid and corrupt humors, the cause of disease,
in an easy and natural manner; and while they
every day
GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the
body.

Beware of Counterfeits!
The patrons of Wright's Indian Vegetable Pills
are cautioned against being deceived by medicine
purporting to be Indian Pills, manufactured by one
A. L. Norcross who is traveling about the country,
endeavoring by every artifice to palm off his worth-
less trash for the genuine.
It should be remembered that all genuine medi-
cine has the title expressed in full on the sides of
the boxes thus:
WRIGHT'S INDIAN VEGETABLE PILLS
(INDIAN PURGATIVE.)
Of the North American College of Health.
And that all Traveling Agents are provided with a
Certificate of Agency, signed by William Wright,
Vice President of the N. A. Coll. of Health. All
travelers, therefore, who offer Indian Pills for sale,
and cannot show a certificate of Agency, as above
described, will be known as wicked imposters.
Purchasers will further remember that the coun-
terfeits in the hope of evading the law, have
omitted the name of "Wright," and substituted
some word in its place; that the medicine must
have "WRIGHT'S INDIAN VEGETABLE
PILLS" on the sides of the boxes; and that all
with the above omission are positively spurious.
And also around the border of the label, will be
found in small type, "Entered according to the Act
of Congress in the year 1840, by Wm. Wright in
the Clerk's Office of the District Court, of the Eastern
District of Pennsylvania."
It will further be observed that the printed di-
rections for using the medicine, which accompanies
each box, are also entered according to Act of Con-
gress; and the same form will be found at the bot-
tom of the first page.
The public will also remember, that all who sell
the genuine Indian Vegetable Pills are provided
with a certificate of Agency, signed by
WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health.
Thus it will be seen, that a trifling attention on
the part of the purchaser to the above particulars,
will put an effectual stop to this wholesale robbery,
and drive, it is hoped, all depredators upon society
to an honest calling.
The following highly respectable persons have
been appointed agents for the sale of the above in
valuable medicine.

ABSOLUTE HEAL OIL.
TRIALS, and all successful, prove
10,000 DALLEY'S MAGICAL PAIN
EXTRACTOR infallible. It not only cures
quicker, but gives no additional pain, nor leaves a
scar. Fire is positively rendered harmless. (\$10
has been offered six months to any person returning
an empty box, and saying that all agony on anoint-
ing is not extracted in a few minutes, yet not one
from thousands of trials since has claimed the bo-
nus.) Parents anxious to guard against general in-
juries and save money, time, torture and life, and
prevent their offspring from being disfigured by
burns, or even small-pox pustules, (it possessing the
enervable power to replace the cellular organs de-
stroyed.) Can do so by obtaining this inestimable
salve. Many deeply burnt cases in the city can be
seen, and one entire face burnt over and wounded
three distinct times in the same spot while healing,
yet in no case can be traced the least cicatrice or
mark! For all kinds of hurts, its rapid, soothing
effects are alike important; even sore eyes, ALL
INFLAMMATIONS and BROKEN BREASTS
would be unknown. The toilet and nursery, for
clearing the skin of pimples, removing chafe, &c.,
will find it indispensable. Once using only will for-
ever establish it the sovereign **HEAL-ALL** qual-
ity. After this notice, heads of families allowing
torture for months, and ultimately distorted features,
can never wipe away reproach, justly uttered by a
disabled child, for neglecting to triumph over fire.

LIN'S CELESTIAL BALM
OF CHINA.
Statements honest, plain and true. Will
you believe and profit by them, or not?
lect and suffer.
THIS Balm or Salve will be found unlike any
other preparation. There is no Fiction in its
agitation in its qualities. It will cure any sore that
can be cured at all. It will take out inflammation,
and take down swellings; and by thorough friction
over the parts externally, will by counter irritation,
remove inward soreness to the surface.
A YOUNG WOMAN, for years afflicted with
a running sore, called a fever sore, cured by the use
of this Balm in about three weeks.
A CHILD, with great hoarseness and difficulty
breathing, relieved and cured by rubbing it well on
the chest and stomach, and covering a flannel with
the Balm and laying it over the breast.
A JUDGE of one of our courts had piles several
months without knowing the name of his complaint,
he used one flask of this Balm and was cured.
A GENTLEMAN who had an attack of piles
every year regularly for ten years, cured himself
five years since by this Balm, and though slightly
threatened at least fifty times since, has kept off an
attack by rubbing on the Balm when any uneasiness,
soreness, or fullness is felt about the parts.
A PRISONER cut a frightful gash in his foot
with a piece of broken glass; he was cured in a few
days by the Balm. The same bottle cured all the
sore fingers, legs and feet in the prison.
AT THE ASYLUM for Aged and Indigent Peo-
ple, it has been used with signal success. One
of the lady patronesses, Mrs. Nixen, has left her
name, and wished sufferers referred to these facts.
NO MAN OR WOMAN can possibly have the
PILES if they use this Balm well when they feel
any uneasiness about the parts. It is far better to
prevent than cure any calamity or ailment.
DIRECTIONS, &c., FOR ITS USE.
FOR THE PILES—If the parts are very sore,
reduce a little of the Balm by mixing half laid with
oil. After one or two trials that way, you must use
it without reducing it. You never can use too much
at a time—if a whole bottle could be absorbed in
two applications, by long friction, it would be still
better.
IF COSTIVE, use it well before going to bed.
—this will do wonders.
TO PREVENT any attack of the Piles, you
must use it whenever you feel a fullness of the parts,
and an attack will be impossible. Hundreds thus
keep off this dreadful complaint entirely.

INTERNAL PILES.
May be reached by injecting it with a syringe,
with a large open point to it. This syringe, used
expressly for injecting this, and the Dalley's salve,
or Hays' liniment, may be found with those who
sell these articles. See drawing. Or in some cases
may be reached with the finger, or covered
with a piece of silk smeared with the Liniment.
PROJECTING PILES.
That won't return at all, may be reduced by
white lead, ground in oil, and put on over-night, by
a spoonful from a point shop.
VERY COLD WATER should be applied by
washing the parts well after stools, particularly if
just before bed-time.
In very old cases of Piles, when there is suppura-
tion and discharge from the parts, or when the
parts are very sore or inflamed, use "DAL-
LEY'S PAIN EXTRACTOR" alternately with
the "CELESTIAL BALM," and your cure is
certain. Use the syringe.
Hoarseness, etc.
IN DIFFICULT BREATHING—Spread it
on linen or flannel, and lay it on the breast, after
having rubbed the breast well with it—the relief
will be felt directly. So with Coughs, and espe-
cially with Hoarseness, or Sore Throat—rub the
skin becomes tender, then spread it on flannel, and
bind it on, and you may depend it will cure you. If
you do not believe it now, you will when you have
once tried it.

Rheumatism.
RHEUMATISM, and all pain in the joints and
stiffness, must be cured by it by rubbing the parts
until the skin becomes tender, and then binding
more on well with flannel.

gists, 71 Maiden Lane, New York.

KOLMSTOCK'S VERMIFUGE.
THIS remedy for worms is one of the most
extraordinary ever used. It effectually ex-
cutes worms of all sorts, from children and adults.
THOUSANDS perish by worms without the knowl-
edge being known. Some other reason is assigned
for their sickness, until too late to cure the real
cause.
What immense responsibility then rests upon the
parent who does not know, and the doctor who does
not understand, the complaint which is destroying
those precious flowers of life—children.
What should be done?
The answer is plain. Give this vermifuge, and
will be sure to do good, if they have no worms; and
if they have, it will destroy and eradicate them.
with a certainty and precision truly astonishing.
It cannot harm the smallest infant or mineral in it.
adult. There is no mercury or emetic in it. The
cure is the basis of most worm remedies; and the
remedy is sometimes worse than the disease. So
never use lozenges, but rely upon this. Every per-
son will be convinced on one trial, that it is the most
perfect cure ever invented.
The immense sale that this vermifuge has had is
sure test of its value and the estimation in which it
is held by families. It would be quite too expensive
to publish the volumes of certificates that have been
given for this article, and the users of it are re-
quested to spread the name to all persons whom they
think may be benefited by it.
Speak of it in all families, and you will see
duty to your fellow creatures, and feel assured
the approbation of all good men, and will reward
your reward in heaven.
We call on all good citizens to make known the
effects of this wonderful remedy.
Remember and ask for Kolmstock's Vermifuge.
though Fahnstock's is supposed to be the same, it
is the one that has become known to you through
the advertisement should be used, in justice to the
proprietors.
